**Application Questions. . .**

1. What especially spoke to you in this message?
2. Imagine yourself being present as the 12-year old Jesus hears this chapter read and discussed by the rabbis. What verses from this chapter do you think would most impress the boy Jesus, and what questions or comments do you suppose He might have spoken (Lk 2:46)?
3. Why such a strong emphasis on teaching these laws and decrees to children? How would you characterize this method of teaching?
4. How important is it to you that the children in your life grow up to celebrate God’s love and appreciate His role in their life? How can you build traditions that teach them about God’s love (also vss. 20-25)?
5. Look again at verses 6-7. How often are the words of Scripture heard spoken aloud in your home?
6. Come up with one thing you can begin doing to become more intentional about imparting truth to your children.
